

Incident and Injury Free Thought Provoker

Risk Awareness and Safeguards

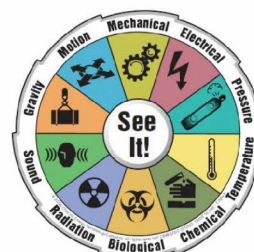

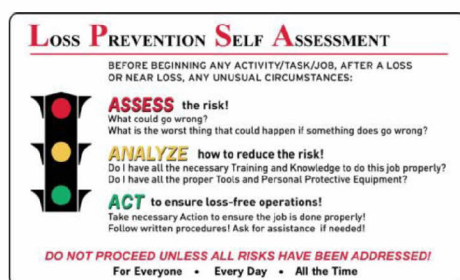

Safeguards are only as good as the people who use them.

Have you ever thought to yourself, “I’ve done this job a thousand times and nothing’s going to go wrong if I take a shortcut – nothing’s ever happened before”.

Take Action

Our personal decisions affect the success or failure of the safeguards we use. Gain satisfaction from ensuring complacency has no part in your work – complete every task, the right way, every time.

- Provide complete and accurate information during every JJSV.
- Check to make sure that what is being communicated during morning tailgate meetings is understood by everyone.
- Know all of the hazards on the hazard wheel.
- Approach and stop/ pause people (with respect) when you think their actions may be unsafe or contribute to any loss.
